Established in 1987, Colonial provides issuers and shareholders the most professional, cost effective and innovative services in the industry by going beyond standard transfer agency agendas and incorporating a more personal touch with competent, efficient employees and unmatched customer service.

We provide first class transfer agent services combined with cost saving efficiencies through both "a la carte" and monthly plans to help large and small issuers save money. Our shareholder computer system is maintained on a secure database with network and firewall encryption. We maintain historical and backup data at a secure off-site data center. Records are kept completely confidential, available only to those who have been authorized in writing.

Stock Transfer Agent Services

In order to maintain a high level of service to shareholders with today's increasing complexities surrounding regulation reform, having a competent, professional stock transfer agent providing shareholder services on your behalf is invaluable. Also, knowing that your transfer agent has live people to answer your shareholders' phone call and service requests is very comforting.
